FOR SUSTAINABILITY

City Park Plan

Public Meeting

Tuesday, April 23
6:00 pm - 7:30 pm @ Kroc Center

Since the charrette, the design team has met with staff, a steering committee, and others to assess construction costs, operations and maintenance issues, and the appropriateness of each design element.

We ask the public to join us as we integrate this information and work towards a consensus plan. You can help us evaluate this "work in progress" and guide our decisions as we develop a vision for this potential park.

For more information, please contact Jeff Waters @ 467-4350
